SUMMARY

MERN-stack web developer proficient in React, Node.js, Express and MongoDB. Built responsive, accessible apps (MovieFlix, LocalConnect) focused on UI, client-server integration, and performance.

EXPERIENCE

- Banana Soft Infotech, MERN stack developer**07/2025 – 12/2025 | Surat, Gujarat
- Developed MovieFlix with 20+ reusable React components and reduced load time through lazy loading and code splitting.
 - Integrated a live movie database API and implemented debounced client-side search with efficient querying to minimize API calls and improve search responsiveness.
 - Developed reusable, accessible UI components and implemented client-side routing and centralized state management (Context/Redux) to accelerate feature delivery and ensure UI consistency.
 - Optimized front-end performance using code-splitting, lazy loading and image optimization, significantly reducing perceived load times and improving interactivity.
 - Collaborated with backend engineers to design secure RESTful endpoints, authentication flows and robust error handling, ensuring reliable end-to-end data flow and deployment readiness.

EDUCATION

- B.Tech Computer Science and Engineering,**Present | Bardoli, surat
Asha m tarsadia institute of computer science and technology
 - Pursuing B.Tech in Computer Science & Engineering (ongoing).
 - CGPA: 8.00/10 (up to 5th Semester)
- Higher Secondary Certificate (HSC), Shree Vasishtha Vidyalyaya**Kamrej, Surat
Completed Higher Secondary Certificate (HSC).

SKILLS

- | | | | |
|--------------|-----------------|------------------|----------------------|
| • Express.js | • Python | • PHP | • MySQL |
| • UI/UX | • MongoDB | • Cyber security | • Reactjs |
| • HTML | • Node.js | • Javascript | • CSS |
| • REST API | • GitHub | • Redux | • JWT Authentication |
| • Postman | • MongoDB Atlas | | |

CERTIFICATIONS

PROJECT

- AI-Powered Hyperlocal Marketplace (LocalConnect AI)**
 - Built a full-stack MERN marketplace connecting local buyers and sellers.
 - Implemented JWT authentication, role-based access control, seller dashboards, product management, and image uploads.
 - Developed AI-powered recommendation features and location-based product discovery.
 - Tech Stack: React.js, Node.js, Express.js, MongoDB, Redux, JWT.
- MovieFlix**
 - MERN-stack movie/TV app with live API integration, debounced search, reusable accessible components, client routing and front-end performance optimizations.
 - Tech Stack: React.js, Node.js, Express.js, MongoDB, TMDB API
- Student Attendance System**
 - ASP.NET Core MVC attendance system with role-based access (Admin/Teacher/Student), CRUD, reports with percentage calculations, Excel export, Bootstrap 5 UI, SQLite backend and ASP.NET Identity authentication.
 - Tech Stack: ASP.NET Core MVC, SQLite, Bootstrap 5
- Tulsi Makeover**
 - Responsive salon website with appointment booking, service gallery, and about pages.
 - Built with HTML, CSS and PHP; includes server-side booking form with validation and an admin booking dashboard for schedule management.
 - Tech Stack: HTML, CSS, PHP, MySQL

ACHIEVEMENTS

- Built 3 full-stack web applications
- Completed 6+ industry certifications
- CGPA 8.00/10
